Ethics for the Information Age Michael Jay Quinn 2006 Widely praised for its balanced treatment of computer ethics, Ethics for the Information Age offers a modern presentation of the moral controversies surrounding information technology. Topics such as privacy and intellectual property are explored through multiple ethical theories, encouraging readers to think critically about these issues and to make their own ethical decisions.

Losing the Signal Jacquie McNish 2015-05-26 In 2009, BlackBerry controlled half of the smartphone market. Today that number is one percent. What went so wrong? Losing the Signal is a riveting story of a company that toppled global giants before succumbing to the ruthlessly competitive forces of Silicon Valley. This is not a conventional tale of modern business failure by fraud and greed. The rise and fall of BlackBerry reveals the dangerous speed at which innovators race along the information superhighway. With unprecedented access to key players, senior executives, directors and competitors, Losing the Signal unveils the remarkable rise of a company that started above a bagel store in Ontario. At the heart of the story is an unlikely partnership between a visionary engineer, Mike Lazaridis, and an abrasive Harvard Business school grad, Jim Balsillie. Together, they engineered a pioneering pocket email device that became the tool of choice for presidents and CEOs. The partnership enjoyed only a brief moment on top of the world, however. At the very moment BlackBerry was ranked the world's fastest growing company internal feuds and chaotic growth crippled the company as it faced its gravest test: Apple and Google's entry in to mobile phones. Expertly told by acclaimed journalists, Jacquie McNish and Sean Silcoff, this is an entertaining, whirlwind narrative that goes behind the scenes to reveal one of the most compelling business stories of the new century.

Presidents, Kings, and Convicts Bob Clement 2016-10-20 From a colorful youth growing up in the governors mansion, to a distinguished military career, and seeing firsthand the politics of world events during the second half of the twentieth century, Presidents, Kings, and Convicts tells the story of Congressman Bob Clements multifaceted life, and it reveals many previously untold stories about famous people. This memoir narrates the shaping of his life as a moderate Democrat growing up in the south in the 1950s; it shares how Clement had a front-row seat to some of Americas most significant events since World War II; it provides insights on the current crisis situations taking place in the Middle East and around the world; and it addresses the dysfunction and lack of bipartisanship among the nations political leaders, as well as offers solutions for getting the country back on track. Presidents, Kings, and Convicts provides entertaining and captivating behind-the-scenes accounts of some of Clements most memorable events and the people who shaped them. From personal stories of country music stars and other notable Americans, to the bipartisan meeting with the exiled king of Afghanistan and leaders of the Northern Alliance at the kings home outside Rome, Italy, Clement offers insight into his event-filled life and his storied political journey.

Where the Crawdads Sing Delia Owens 2018-08-14 NOW A MAJOR MOTION PICTURE—The #1 New York Times bestselling worldwide sensation with more than 15 million copies sold, hailed by The New York Times Book Review as “a painfully beautiful first novel that is at once a murder mystery, a coming-of-age narrative and a celebration of nature.” For years, rumors of the “Marsh Girl” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life—until the unthinkable happens. Where the Crawdads Sing is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.

Plunkett's Wireless, Wi-Fi, RFID and Cellular Industry Almanac 2008 Jack W. Plunkett 2007-07 The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our 350 company profiles include complete business descriptions and up to 27 executives by name and title.

Dictionary Of Word Roots Donald Borrer 1960-09-01 One of the outstanding problems of the biologist, whether he be beginning student or specialists, is that of understanding technical terms. The best way to understand and remember technical terms is to understand first their component parts, or roots. This dictionary has been designed primarily to meet the needs of the beginning student, the medical student, and the taxonomist, but it should be of value to all biologists.

The Shadow Factory James Bamford 2008-10-14 James Bamford has been the preeminent expert on the National Security Agency since his reporting revealed the agency's existence in the 1980s. Now Bamford describes the transformation of the NSA since 9/11, as the agency increasingly turns its high-tech ears on the American public. The Shadow Factory reconstructs how the NSA missed a chance to thwart the 9/11 hijackers and details how this mistake has led to a heightening of domestic surveillance. In disturbing detail, Bamford describes exactly how every American's data is being mined and what is being done with it. Any reader who thinks America's liberties are being protected by Congress will be shocked and appalled at what is revealed here.

Idea Man Paul Allen 2011-04-19 By his early thirties, Paul Allen was a world-famous billionaire-and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor-combined with the resources to launch and support new initiatives-have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he has solved problems, what he's learned from his many endeavors-both the triumphs and the failures-and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

Pence Andrea Neal 2018-08 What does it take to become the second-in-command of one of the most powerful countries in the world? Mike Pence's rise to the vice presidency of the United States wasn't always easy. To some, he is the personification of American conservative values, but to others, his ideals are the epitome of prejudice and bigotry. In Pence: The Path to Power, journalist Andrea Neal showcases how the vice president arrived at this position of influence. Neal interviews friends, family, staff, former teachers, and politicians on both sides of the aisle to reveal a multifaceted view of the self-described Christian, Conservative, and Republican-in that order-from his beginnings in a large Irish Catholic family in Columbus, Indiana, through the scandals of his first election, to his time beside Donald Trump. This candid look at Mike Pence's life exposes his unexpected path to power and the individuals who influenced him along the way.

Walk in My Shoes Andrew J. Young 2010-05-11 A top aide to Martin Luther King, Jr., Andrew Young has been a witness to history and has made his own. During the civil rights movement, he worked tirelessly as a strategist and negotiator during the campaigns that resulted in the passage of the Civil Rights Act and Voting Rights Act, and was at Martin Luther King, Jr.'s side when he was assassinated. For years, in correspondence and conversation, he has been mentoring his godson, Kabir Sehgal. In this entertaining and provocative discourse, Young shares his thoughts and meditations on such important topics as race, civil rights, faith, and leadership. Young offers his wisdom on these subjects to a new generation of young men and women in hopes that his battle-tested voice will inspire and encourage those in whose hands the world will soon rest.
