Kanuni i Lekë Dukagjinit Lekë Dukagjini 1989 "THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

Chronicle in Stone Ismail Kadare 2011-07-01 Masterful in its simplicity, Chronicle in Stone is a

touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

The guide presents the trail in 10 daily stages and also includes suggestions for excursions to bag neighbouring peaks and visit local sites of interest. Comprehensive route description is accompanied by mapping and colour photos. Welcoming guesthouses and homestays offer accommodation and delicious local cuisine on route, though camping is also a possibility. Five Albanian Villages Antonio Lauria 2020-12-27 This book is the result of a research project designed and carried out at the Department of Architecture, University of Florence. This research was based on the transfer of knowledge from members of the Albanian Diaspora in Italy (university students, young architects and researchers) to their home country. This unique process blazed a trail in the Albania-related studies by creating a methodology, which could be replicated not only in Albanian rural contexts, but also elsewhere. The book constitutes a structured tool for generating sustainable and socially inclusive territorial development processes in five lesser-known Albanian cultural sites. Their tangible and intangible cultural heritage was seen as a driving factor for triggering development processes aimed at improving the inhabitants' quality of life and strengthening local identity and social networks. Through concrete proposals and strategies, the book offers scenarios and solutions capable of enhancing the potential of each village and, at the same time, counteracting the effects of land abandonment that so often characterise them.

The Growing and Developing Earth Vedat Shehu 2005-10-11 The inner structure of the Earth, in the form as it's still expressed today in the standard books, is a complete reflection of the archaic method of thinking. The continual change in the state of matter by pressure and temperature rising towards the Earth center, it is not an essential change in the character of chemical elements to create the core, shell-like building of the mantle, lithosphere and the known processes. This is also a firm argument why the necessity appears to place a sort of ultra dense matter as the source of permanent transformation in the core's central region, to create different particles and sub particles in bonds of atoms or free in radiation. Lets suppose for a moment that we would remove the silicate coverings. What would be the outcome? The processes of transformation and growth would continue in the core. The "small earth" would begin to recreate the silicate coat progressively with time, and we would "see" the imitation of crust formation, as well as the differentiation, the "bone of discord" between the fixists, mobilists and supporters of the expansion and their "quarrel" would end forever. Such solution on the geologic development of Earth crust must radically change the method of thinking about the origin of the solar system.

The first book to focus exclusively on the subject, Geodiversity describes the interrelationships between geodiversity and biodiversity, the value of geodiversity to society, as well as current threats to its existence. Illustrated with global case studies throughout, the book examines traditional approaches to protecting biodiversity and the new management agenda which is starting to be used instead.

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

A Biographical Dictionary of Albanian History Robert Elsie 2012-12-06 The history of Albania includes some memorable characters - from the legendary Albanian hero Scanderbeg to the glamorous Queen Geraldine. Robert Elsie's extensively researched Biographical Dictionary of Albania History provides fascinating and comprehensible information on over 700 Albanian and Albania-related historical figures, from the Ancient World via the centuries of Ottoman rule, the struggle for independence and the years of communism right up to the end of the twentieth century. Taking an encyclopaedic approach, this unique book considers the colourful cast of characters that influenced Albania's history and development - be they native Albanians or visitors from overseas. All notable historical and political figures - from the Kings of Illyria to Enver Hoxha - are included as well as leading figures of culture and the arts - from Marin Barleti to Faik Konitza. Visitors who had intimate ties with Albania - including Lord Byron, Benjamin Disraeli, Edward Lear, Aubrey Herbert, Edith Durham and Rose Wilder Lane - are also studied. In addition to these well-known figures, the entries also comprise individuals as diverse as an eighteenth-century Montenegrin impostor, a German circus acrobat and the Austrian mistress of King Zog. As the most reliable and comprehensive source of information about Albanian history available in English, this book will be essential reading for anyone interested in the history of this pivotal Balkan state. Robert Elsie shows how this important group of individuals influenced Albanian history and helped

to shape the country as it is today.

Genetic Improvement of Tomato G. Kalloo 2012-12-06 The esculent *Lycopersicon esculentum*, long thought to be poisonous, has become a major U. S. food crop and source of vitamins and minerals, thanks largely to genetic modification and new production technology Rick (1978) Tomato (*Lycopersicon esculentum* Mill.) is one of the most important solana ceous vegetable crops grown worldwide under outdoor and indoor conditions. It has become an important commercial crop so far as the area, production, industrial values and its contribution to human nutrition is concerned. During the past few decades tremendous developments have contributed to the knowledge and understanding of various areas of genetics, breeding and biotechnology and voluminous literature has been generated. The purpose of preparing this monograph is to give a comprehensive up-to-date treatment to the various aspects of genetic improvement of tomato. The emphasis has been placed on cytology, classical and molecular genetics, reproductive biology, germplasm resources, hybrid seed production, use of wild taxa, selection/ breeding methods, breeding for abiotic and biotic stresses, processing and quality breeding, improvement for mechanical harvesting, and biotechnology: tissue culture, protoplast fusion, and genetic transformation. These topics are presented in 22 different chapters. However, a few aspects have been discussed in more than one chapter. For example, seed production is treated in chapters 1, 4 and 8; molecular biology/genetic engineering in chapters 3 and 22 and heterosis in chapters 8 and 16.
