Instead of throwing a website together and hoping it sticks, we thought that if we were going to do this, we wanted to add value by finding out just what buyers of businesses are seeking. I was hesitant at first, but knew we should "do something different." We started to build upon free accounts, learning through trial and error what brokers, sellers, and buyers want. We are still learning. This book is designed to give you, as a buyer, some good "hands on" information when buying a new business. It includes business broker tips and hearing what they have to say about buying a business. The reason why we based this guidebook on broker interviews is because of their vast experience and knowledge when it comes to mergers and acquisitions. This short and easy to read compilation of information is sure to get your feet set on the right path before you invest your life savings and go head long into the purchase of a new or existing business. We are going to teach you right away some of the most important things you absolutely need to know in order to avoid making any major financial mistakes as you begin this process. If this is your first time deciding you want to own and operate a business, this simple guide will give you a framework for success. How to Buy a Business With Little or No Money Down Ade Asefeso MCIPS MBA 2015-08-30 Many smart entrepreneurs prefer to buy an existing business instead of beginning a new one. Buying a business that is already operational will bring many benefits, including an already established product or service, well trained staff who know the business and enough success to have kept the company afloat for a period of time. Not having any money to purchase the business will not necessarily keep you from buying it. Banks have been tightening their commercial lending standards in the last few years, but you can still find the funding necessary to purchase a business without using your own money. If you were born with that “entrepreneurial spark” in your eye, then no economist or banker is going to keep you from starting a business. While many analysts may say that it’s not a good time to become a business owner, others have found that buying a business with no money is suddenly a possibility.

An Insider's Guide on How to Sell Your Business: A Broker's Perspective Christina Lazuric Woscoff

Built to Sell John Warrillow 2011-04-28 According to John Warrillow, the number one mistake entrepreneurs make is to build a business that relies too heavily on them. Thus, when the time comes to sell, buyers aren't confident that the company-even if it's profitable-can stand on its own. To illustrate this, Warrillow introduces us to a fictional small business owner named Alex who is struggling to sell his advertising agency. Alex turns to Ted, an entrepreneur and old family friend, who encourages Alex to pursue three criteria to make his business sellable: * Teachable: focus on products and services that you can teach employees to deliver. * Valuable: avoid price wars by specialising in doing one thing better than anyone else. * Repeatable: generate recurring revenue by engineering products that customers

have to repurchase often.
