How to Buy a Business With Little or No Money Down Ade Asefeso MCIPS MBA 2015-08-30 Many smart entrepreneurs prefer to buy an existing business instead of beginning a new one. Buying a business that is already operational will bring many benefits, including an already established product or service,

well trained staff who know the business and enough success to have kept the company afloat for a period of time. Not having any money to purchase the business will not necessarily keep you from buying it. Banks have been tightening their commercial lending standards in the last few years, but you can still find the funding necessary to purchase a business without using your own money. If you were born with that "entrepreneurial spark" in your eye, then no economist or banker is going to keep you from starting a business. While many analysts may say that it's not a good time to become a business owner, others have found that buying a business with no money is suddenly a possibility.

Alex turns to Ted, an entrepreneur and old family friend, who encourages Alex to pursue three criteria to make his business sellable: * Teachable: focus on products and services that you can teach employees to deliver. * Valuable: avoid price wars by specializing in doing one thing better than anyone else. * Repeatable: generate recurring revenue by engineering products that customers have to repurchase often.

MJ Gottlieb's How To Ruin A Business Without Really Trying takes a new and exciting approach to help entrepreneurs by telling them what "not" to do. The book uses fifty-five painstaking, yet hysterical tales throughout MJ Gottlieb's 21-year journey as an entrepreneur to highlight some of the most prevalent and destructive mistakes entrepreneurs make when running a business today. Truth-be-told, entrepreneurs simply do NOT like to be told what to do. Learning from the mistakes of others however, takes the ego out of the equation so entrepreneurs can learn objectively, while still allowing them to enjoy the freedom of their own experience.

First off, a little bit about ourselves: my brother Alex and I came up with an idea to build a "Businesses for Sale" type of website. So we purchased the domain name www.for-sale-businesses.com. Instead of throwing a website together and hoping it sticks, we thought that if we were going to do this, we wanted to add value by finding out just what buyers of businesses are seeking. I was hesitant at first, but knew we should "do something different." We started to build upon free accounts, learning through trial and error what brokers, sellers, and buyers want. We are still learning. This book is designed to give you, as a buyer, some good "hands on" information when buying a new business. It includes business broker tips and hearing what they have to say about buying a business. The reason why we based this guidebook on broker interviews is because of their vast experience and knowledge when it comes to mergers and acquisitions. This short and easy to read compilation of information is sure to get your feet set on the right path before you invest your life savings and go head long into the purchase of a new or existing business. We are going to teach you right away some of the most important things you absolutely need to know in order to avoid making any major financial mistakes as you begin this process. expertise. It is my hope and desire that you will think clearly and carefully about these concepts as you consider buying a business.
