The examiner checks your ID. The examiner tries to get you to settle down (feel relaxed), asking basic questions about your life, your background, family and so on. PART 2 : (3 to 4 minutes) The examiner gives you a card with a topic written on it. You have one minute to think about this topic and prepare what you are going to say. Then you must speak about the topic for one to two minutes. After you finish talking, the examiner could ask some follow-up questions. Going through this book in details will help one reduce the pauses or thinking time, help you to answer a question without sounding repetitive and will add better vocabulary to your speech. Let us all be aware that a lot of questions are common or similar in nature in speaking test and it would be wise for the student to come up with the most suitable and accurate answer, rather than giving a too lengthy or too short an answer. IELTS Speaking Mark Griffiths 2013 Everything you need to know about IELTS Speaking in one book! What exactly do you have to do to get a particular band score? Which easy-to-learn words and phrases can improve your score quickly? What should you include in your answers to impress the examiner? Which aspects of grammar or pronunciation should you focus on? Anyone aiming for band 6 or higher in IELTS Speaking needs targeted practise and easy-to-follow explanations. This book - the result of years of IELTS examination experience - provides the most up-to-date information and an extensive bank of topics and questions with suggestions on how to create impressive answers that demonstrate to the examiner that your English is of a high standard. Having taught IELTS preparation courses in China for twelve years and having extensive experience as an IELTS examiner, I have become familiar with the main problems students from different cultural backgrounds face when getting ready to take the test. This book

aims to help students deal with these problems. The first part of the book gives an overview of the speaking test and its requirements in terms of the test criteria. This section also includes information on the use of grammar and various parts of speech. The second part of the book provides topics for the three parts of the test with questions and suggestions for active practice. These topics and questions are based on actual topics and questions that appear in the IELTS Speaking Module. So how is this book different - and better - than other books on the market? First of all, it takes the user through the test and through the test criteria in greater detail than other books. It looks at problems that candidates actually have during the test. Furthermore, it provides candidates with various structured ways to create their own original answers. For each topic, for each part of the test, there are questions followed by suggestions for answer development. Of course, these suggestions are not the only ways to answer the questions, but they provide starting points for candidates who are having difficulty finding ideas. Students should, of course, aim to supplement them with others that they have learnt during their English studies.
