Post-Digital Print Alessandro Ludovico 2019-04-23 Digital technology is now a normal part of everyday life. The mutation of music and film into bits and bytes, downloads and streams is now taken for granted. For the world of book and magazine publishing however, this transformation has only just begun. Still, the vision of this transformation is far from new. For more than a century now, avant-garde artists, activists and technologists have been anticipating the development of networked and electronic publishing. Although in hindsight the reports of the death of paper were greatly exaggerated, electronic publishing has now certainly become a reality. How will the analog and the digital coexist in the post-digital age of publishing? How will they transition, mix and cross over? In this book, Alessandro Ludovico rereads the history of the avant-garde arts as a prehistory of cutting through the so-called dichotomy between paper and electronics. Ludovico is the editor and publisher of Neural, a magazine for critical digital culture and media arts. For more than 20 years now, he has been working at the

cutting edge (and the outer fringes) of both print publishing and politically engaged digital art.

The Book of Disquiet Fernando Pessoa 2010-12-09 Sitting at his desk, Bernardo Soares imagined himself free forever of Rua dos Douradores, of his boss Vasques, of Moreira the book-keeper, of all the other employees, the errand boy, the post boy, even the cat. But if he left them all tomorrow and discarded the suit of clothes he wears, what else would he do? Because he would have to do something. And what suit would he wear? Because he would have to wear another suit. A self-deprecating reflection on the sheer distance between the loftiness of his feelings and the humdrum reality of his life, The Book of Disquiet is a classic of existentialist literature.

Historical Dictionary of Italian Cinema Gino Moliterno 2008 "Italian cinema is regarded as one of the great pillars of world cinema. Films like Ladri di biciclette (1948), La dolce vita (1960), and Nuovo cinema Paradiso (1988) attracted unprecedented international acclaim and a reputation, which only continue to grow. Italian cinema has produced such acting legends as Sophia Loren and Roberto Benigni, as well as world-renowned filmmakers like Federico Fellini, Sergio Leone, Mario Bava, Dario Argento, and Lina Wertmuller, the first woman to ever be nominated for the Best Director award." "The Historical Dictionary of Italian Cinema provides a better understanding of the role Italian cinema has played in film history through a chronology, an introductory essay, a bibliography, appendixes, black--white photos, and hundreds of cross-referenced dictionary entries on actors, actresses, movies, producers, organizations, awards, film credits, and terminology."--BOOK JACKET.

Castle in the Air Diana Wynne Jones 2012-09-25 In this stunning sequel to Howl's Moving Castle, Diana Wynne Jones has again created a large-scale, fast-paced fantasy in which people and things are never quite what they seem. There are good and bad djinns, a genie in a bottle, wizards, witches, cats and dogs (but are they cats and dogs?), and a mysterious floating castle filled with kidnapped princesses, as well as two puzzling prophecies. The story speeds along with tantalizing twists and turns until the prophecies are fulfilled, true identities are

revealed, and all is resolved in a totally satisfying, breathtaking, surprise-filled ending. Abdullah was a young and not very prosperous carpet dealer. His father, who had been disappointed in him, had left him only enough money to open a modest booth in the Bazaar. When he was not selling carpets, Abdullah spent his time daydreaming. In his dreams he was not the son of his father, but the long-lost son of a prince. There was also a princess who had been betrothed to him at birth. He was content with his life and his daydreams until, one day, a stranger sold him a magic carpet. All fans of classic fantasy books deserve the pleasure of reading those by Diana Wynne Jones, whose acclaim included the World Fantasy Award for Life Achievement. As Neil Gaiman stated, she was "quite simply the best writer for children of her generation." The three books in the World of Howl are: Howl's Moving Castle Castle in the Air House of Many Ways Other beloved series from Dianna Wynne Jones include the Chronicles of Chrestomanci and the Dalemark Quartet.

Undressing Cinema Stella Bruzzi 2012-10-12 From Audrey Hepburn in Givenchy, to sharp-suited gangsters in Tarantino movies, clothing is central to film. In *Undressing Cinema*, Stella Bruzzi explores how far from being mere accessories, clothes are key elements in the construction of cinematic identities, and she proposes new and dynamic links between cinema, fashion and costume history, gender, queer theory and psychoanalysis. Bruzzi uses case studies drawn from contemporary popular cinema to reassess established ideas about costume and fashion in cinema, and to challenge conventional interpretations of how masculinity and femininity are constructed through clothing. Her wide-ranging study encompasses: * haute couture in film and the rise of the movie fashion designer, from Givenchy to Gaultier * the eroticism of period costume in films such as *The Piano* and *The Age of Innocence* * clothing the modern femme fatale in *Single White Female*, *Disclosure* and

The Last Seduction * generic male chic in Goodfellas, Reservoir Dogs, and Leon * pride, costume and masculinity in `Blaxploitation' films, Boyz `N The Hood and New Jack City * drag and gender confusion in cinema, from the unerotic cross-dressing of Mrs Doubtfire to the eroticised ambiguity of Orlando.

The Vale of Soulmaking Meg Harris Williams 2018-03-29 The post-Kleinian model of the mind, as developed by W. R. Bion and Donald Meltzer, is essentially an aesthetic one. It is founded on Melanie Klein's discovery of the "internal object" with its combined masculine and feminine qualities and ambiguous, awe-inspiring nature. Turbulent emotional experiences are repeatedly transformed through symbol-formation, on the basis of the internal relationship between the infant self and its object; and the aesthetic containment provided by this "counter-transference dream" (as Meltzer put it) enables the mind to digest its conflicts and develop. This search for a pattern that can make "contrary" emotions thinkable is modelled by all art forms and accounts for their universal significance. It is a process that can be observed particularly clearly in literature, in the form of the romance between the poet and his Muse (the traditional formulation of the psycho-analytic internal object).

Menswear of the Lombards. Reflections in the light of archeology, iconography and written sources Yuri Godino 2016-12-26 Often considered to be "the most barbaric among barbarian populations", the Lombards actually boast one of the most prosperous and complex civilizations of the Migration Period, able to bequeath refined cultural and artistic treasures, as well as enchanting crafts. This paper aims at focusing on menswear, a cornerstone of the Lombard culture which used to be an essential expression of status for the German societies. The main goal is to offer a consistent and useful summary of the historical data, providing the reader with an up-

to-date bibliographic support and a series of reconstructive interpretations, both encouraging a critical approach to the subject and helping the work of mostly any meticulous re-enactor. Textile materials, colors and clothing are described using documentary, archaeological and iconographic sources from the Lombard kingdom in Italy, comparing them with the evidence pertaining to Germanic Europe and the neighboring Mediterranean world. In addition, the author revisits the currently known theories on the spatha suspension belt, a basic element of the armed man equipment.

The Place of Narrative Marilyn Aronberg Lavin 1990-12-15 Looking at more than two hundred Italian medieval and Renaissance mural cycles, Lavin examines—with the aid of computer technology—the "rearranged" chronologies of familiar religious stories found therein. "Like many masterpieces, Lavin's book builds upon a

simple idea . . . it is possible to do a computer analysis of . . . visual narratives. . . . This is the first computer-based study of the visual arts of which I am aware that illustrates how those technologies can utterly transform the study of old master art. An extremely important book, one likely to become the most influential recent study of art of this period, *The Place of Narrative* is also a beautiful artifact."—David Carrier, *Leonardo* "Covering over a millennium and dealing with the whole of Italy, Lavin makes pioneering use of new methodology employing a computer database . . . [and] novel terminology to describe the disposition of scenes of church and chapel walls. . . . We should recognize this as a book of high seriousness which reaches out into new areas and which will fruitfully stimulate much thought on a neglected subject of very considerable significance."—Julian Gardner, *Burlington Magazine*

In Search of J. D. Salinger Ian Hamilton 2010-04-15 Ian Hamilton wrote two books on J. D. Salinger. Only one, this one, was published. The first, called *J. D. Salinger: A Writing Life*, despite undergoing many changes to accommodate Salinger was still victim of a legal ban. Salinger objected to the use of his letters, in the end to any use of them. The first book had to be shelved. With great enterprise and determination however, Ian Hamilton set to and wrote this book which is more, much more, than an emasculated version of the first. For someone whose guarding of his privacy became so fanatical it is perhaps surprising how much Ian Hamilton was able to disinter about his earlier life. Until Salinger retreated completely into his bolt-hole outside Cornish in New Hampshire many aspects of his life, though it required assiduousness on the biographer's part, could be pieced together. A surprising portrait emerges; although there were early signs of renunciation, there were moments when his behaviour could almost be described as gregarious. The trail Hamilton follows is fascinating, and the story almost has the lineaments of a detective mystery with the denouement suitably being played out in Court. 'As highly readable and as literate an account of Salinger's work from a biographical perspective as we are likely to receive' *The Listener* 'A sophisticated exploration of Salinger's life and writing and a sustained debate about the nature of literary biography, its ethical legitimacy, its aesthetic relevance to a serious reading of a writer's books' Jonathan Raban, *Observer* 'Hamilton's book is as devious, as compelling, and in a covert way, as violent, as a story by Chandler' Victoria Glendinning, *The Times*

Umineko WHEN THEY CRY Episode 1: Legend of the Golden Witch Ryukishi07, 2014-04-22 Six people are dead, and Battler and his remaining relatives slowly come around to addressing the terrifying reality of their situation: Either one of their number is a murderer, or there is a nineteenth person on the island who wants the Ushiromiya family dead. Regardless, the killer seems to be following the inscription beneath the portrait of Beatrice, the instructions for finding the elder Ushiromiya's vast treasure of gold. But each line of the inscription calls for more death, more blood...and the revival of the witch Beatrice herself... Will any remain alive to see the end of this mystery?

The Selected Poetry and Prose of Vittorio Sereni Vittorio Sereni 2008-09-15 One of the most important Italian poets of the last century, Vittorio Sereni (1913–83) wrote with a historical awareness unlike that of any of his contemporaries. A poet of both personal and political responsibility, his work sensitively explores life under fascism, military defeat and imprisonment, and the resurgence of extreme right-wing politics, as well as the roles played by love and friendship in the survival of humanity. The first substantial translation of Sereni's oeuvre published anywhere in the world, *The Selected Poetry and Prose of Vittorio Sereni* is a unique guide to this twentieth-century poet. A bilingual edition, reissued in paperback for the poet's centenary, it collects Sereni's poems, criticism, and short fiction with a full chronology, commentary, bibliography, and learned introduction by British poet and scholar Peter Robinson.

Regulation and Entry into Telecommunications Markets Paul de Bijl 2003-01-09 This book analyses telecommunications markets from early to mature competition, filling the gap between the existing economic literature on competition and the real-life application of theory to policy. Paul De Bijl and Martin Peitz focus on both the transitory and the persistent asymmetries between telephone companies, investigating the extent to which access price and retail price regulation stimulate both short- and long-term competition. They explore and compare various settings, such as non-linear versus linear pricing, facilities-based versus unbundling-based or carrier-select-based competition, non-segmented versus segmented markets. On the basis of their analysis, De Bijl and Peitz then formulate guidelines for policy. This book is a valuable resource for academics, regulators and telecommunications professionals. It is accompanied by simulation programs devised by the authors both to

establish and to illustrate their results.

The Italian Literature of the Axis War Guido Bartolini 2021-04-26 This book investigates the representation of the Axis War – the wars of aggression that Fascist Italy fought in North Africa, Greece, the Soviet Union, and the Balkans, from 1940 to 1943 – in three decades of Italian literature. Building on an innovative and interdisciplinary methodology, which combines memory studies, historiography, thematic criticism, and narratology, this book explores the main topoi, themes, and masterplots of an extensive corpus of novels and memoirs to assess the contribution of literature to the reshaping of Italian memory and identity after the end of Fascism. By exploring the influence that public memory exercises on literary depictions and, in return, the contribution of literary texts to the formation and dissemination of a discourse about the past, the book examines to what extent Italian literature helped readers form an ethical awareness of the crimes committed by members of their national community during World War II.

Pope Joan Michael E. Habicht 2021-02-08 Pope Joan. A concealed pontificate of a woman or a fictitious legend? In 1277, Martin of Troppau mentioned in his chronicle the pontificate of a woman who, as John Anglicus, had held the office of pope for two and a half years around 850 and was later removed from the list of popes. Since then, the world has been puzzling over the question of whether this is the truth or whether it is a legend that persisted. Was there once a female pope? And what consequences does this have for apostolic succession and for the question of whether women should be ordained as priests? The textbook presents new materials and presents an amazing and consistent theory: a silver coin from the period 856 to 858 with the inscription SCS PETRVS (Saint Peter) and the papal monogram IOHANIS. Stylistically the coin belongs to the time before Pope Nicolaus I (858 - 867) and should therefore be assigned to a Pope John in the 850s. In this time there is only Johannes Anglicus, the female pope. Thus, there is a historical proof for the real existence of the Popess.

Science in the Kitchen and the Art of Eating Well Pellegrino Artusi 2003-12-27 First published in 1891, Pellegrino Artusi's *La scienza in cucina e l'arte di mangiar bene* has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than 52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of a friendly advisor – humorous and nonchalant. He indulges in witty anecdotes about many of the recipes, describing his experiences and the historical relevance of particular dishes. Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture. This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and politics. The illustrations are by the noted Italian artist Giuliano Della Casa.
