enterprise outside the country grew considerably. Much of this change integrated economic activity in Africa and South East Asia where France had colonies in West Africa and Indo-China. General indicators of industrial growth are provided by the following figures: Average annual rate of growth of output of specific industries in France (%)

Archeogenetic analysis of the origin and genetic relations of ...

history and linguistics. Our results restore the credibility of the medieval Hungarian chronicles, e.g. make credible the Hun tradition of the Hungarian speaking Seklers, and their presence in the pre-conquest Carpathian Basin. Nevertheless our results do not answer the origin of modern Hungarians, and leave open quite a few questions.

A COMPANION TO MIDDLE AGES

knowledge of anyone interested in the history of the period in question. While most professional historians have expertise in the history of one or a few regions of the globe, the following nineteen chapters provide a panorama of the early medieval world from the Pacific Islands via the major regions of Afro- Eurasia to Mesoamerica. The individual
