The Transformation of Urban Liberalism Dr James R Moore 2013-06-28 The Transformation of Urban Liberalism re-evaluates the dramatic and turbulent political decade following the 'Third Reform Act', and questions whether the Liberal Party's political heartlands - the urban boroughs - really were in decline. In contrast to some recent studies, it does not see electoral reform, the Irish Home Rule crisis and the challenge of socialism as representing a fundamental threat to the integrity of the party. Instead this book illustrates, using parallel case studies, how the party gradually began to transform into a social democratic organisation through a re-evaluation of its role and policy direction. This process was not one directed from the centre - despite the important personalities of Gladstone and Rosebery - but rather one heavily influenced by 'grass roots politics'. Consequently, it suggests that late Victorian politics was more democratic and open than sometimes thought, with leading urban politicians forced to respond to the demands of party activists. Changes in the structure of urban rule produced new policy outcomes and brought new collectivist forms of New Liberalism onto the political agenda. Thus it is argued that without the political transformations of the decade 1885-1895, the radical liberal governments of the Edwardian era would not have been possible.

Varieties of Narrative Analysis James A. Holstein 2011-08-05 Narrative research has become increasingly popular in the social sciences. While no part of the process is easy, researchers often struggle to make sense of data that can seem chaotic and without a discernable pattern. This book shows how to analyze stories, storytelling, and stories in society, bringing together a variety of approaches to both texts and narrative practice under one cover.

The Swallow's Tale – the Early Years Liam O'Conner 2017-05-01 This story will take you on a rollercoaster ride of adventure and heartbreak, desperation and eventual success but always with a deeper spiritual message as the common thread. This poignant and brutally honest memoir is set against a backdrop of laugh-until-you-cry humour and of emotion which touches the very core. It is a real against all odds story of the underdog, seemingly down and out for the count, face in the mud, battling for breath. But then the devilish Celtic warrior spirit rizes from the ashes as you get to glimpse into the eye of a man who has a fury in his heart and a desire to succeed no matter what is thrown at him. You get to travel from the streets of Cardiff to the sunny suburbs of Johannesburg in an enthralling story. At times it makes you smile with familiarity, on other occasions you are holding your sides with laughter. The sadder parts of the story are not to be read in public unless you have waterproof mascara or a potential excuse for hayfever. The story of Liam O'Conner is as varied as it is sensitive but underneath it all is still the little red haired boy, full of mischief and ambition. So if you're ready, get a cup of tea and a biscuit and go on a holiday of the mind. This is a must read. The Correspondence of Charles Darwin: Charles Darwin 2018-10-18 This volume is part of the definitive edition of letters written by and to Charles Darwin, the most celebrated naturalist of the nineteenth century. Notes and appendixes put these fascinating and wide-ranging letters in context, making the letters accessible to both scholars and general readers. Darwin depended on correspondence to collect data from all over the world, and to discuss his emerging ideas with scientific colleagues, many of whom he never met in person. The letters are published chronologically: volume 26 includes letters from 1878, the year in which Darwin with his son Francis carried out experiments on plant movement and bloom on plants. Francis spent the summer at a botanical research institute in Germany; and father and son exchanged many detailed letters about his work. Meanwhile, Darwin tried to secure government support for attempts by one of his Irish correspondents to breed a blight-resistant potato.
