Range David Epstein 2021-04-27 The #1 New York Times bestseller that has all America talking—with a new afterword on expanding your range—as seen on CNN's Fared Zakaria GPS, Morning Joe, CBS This Morning, and more. “The most important business—and parenting—book of the year.” —Forbes “Urgent and important. . . an essential read for bosses, parents, coaches, and anyone who cares about improving performance.” —Daniel H. Pink Shortlisted for the Financial Times/McKinsey Business Book of the Year Award Plenty of experts argue that anyone who wants to develop a skill, play an instrument, or lead their field should start early, focus intensely, and rack up as many hours of deliberate practice as possible. If you dabble or delay, you'll never catch up to the people who got a head start. But a closer look at research on the world's top performers, from professional athletes to Nobel laureates, shows that early specialization is the exception, not the rule. David Epstein examined the world's most successful athletes, artists, musicians, inventors, forecasters and scientists. He discovered that in most fields—especially those that are complex and unpredictable—generalists, not specialists, are primed to excel. Generalists often find their path late, and they juggle many interests rather than focusing on one. They're also more creative, more agile, and able to make connections their more specialized peers can't see. Provocative, rigorous, and engrossing, Range makes a compelling case for actively cultivating inefficiency. Failing a test is the best way to learn. Frequent quitters end up with the most fulfilling careers. The most impactful inventors cross domains rather than deepening their knowledge in a single area. As experts silo themselves further while computers master more of the skills once reserved for highly focused humans, people who think broadly and embrace diverse experiences and perspectives will increasingly thrive.

New Approaches to Economic and Social Analyses of Discrimination Richard R. Cornwall 1991 This volume examines the concept and social phenomenon of discrimination from economic and sociological perspectives. It brings together the work of a wide range of sociologists and economists and provides a spectrum of methodological and ideological views on this highly charged topic. The breadth of topics and approaches offered here include classical Marxist ideas on rivalry among entrepreneurs and among ethnic groups to neo-classical supply-side and human capital factors, as well as demand-side factors such as efficiency wage theories and organizational inertia. This work will be of interest to specialists in labor economics and sociology. It provides an excellent overview of the relevant issues and current scholarly thought in employment and occupational discrimination.

Happy As a Rat in a Trash Can Don Pasco 2013-05-03 On a scale of 1 to 10, with 1 being not happy at all and 10 being very, very happy, how happy would you say you are right now, BEFORE reading this book? Now remember that number. Inside "Happy As a Rat In a Trash Can" Don challenges the reader to raise that number just as a student would be challenged to raise up school grades. Her Christian values were instilled in him and are presented to the readers throughout this book. Don presents his points with a sense of humor (as reflected in the title) but never does he joke about the seriousness of becoming a happier person. He'll explain why faith is necessary and how the Law of sowing and reaping is creating the world YOU live in. He'll give you a simple question to ask yourself whenever confronted with the tough choices that life brings to all of us. This book's objective is to raise your level of happiness even if you are already a happy person. Don't be surprised if those around you start to wonder what got into you! This book can be your little secret happiness project. You'll learn how and why we all need to pay more attention to others and why that will result in a better future for yourself. Python Passive Network Mapping Chet Hosmer 2015-06-10 Python Passive Network Mapping: P2NMAP is the first book to reveal a revolutionary and open source method for exposing nefarious network activity. The "Heartbleed" vulnerability has revealed significant weaknesses within enterprise environments related to the lack of a definitive mapping of network assets. In Python Passive Network Mapping, Chet Hosmer shows you how to effectively and definitively passively map networks. Active or probing methods to network mapping have traditionally been used, but they have many drawbacks - they can disrupt operations, crash systems, and - most importantly - miss critical nefarious activity. You require an accurate picture of the environments you protect and operate in order to rapidly investigate, mitigate, and then recover from these new attack vectors. This book gives you a deep understanding of new innovations to passive network mapping, while delivering open source Python-based tools that can be put into practice immediately. Python Passive Network Mapping is for practitioners, forensic investigators, IT teams, and individuals who work together when performing incident response and investigating potential damage, or are examining the impacts of new malware threats. Those defending critical infrastructures will have a special interest in this book, as active or probing methods of network mapping are rarely used within these environments as any resulting impacts can be disastrous. Python Passive Network Mapping is ideally suited for use as a text in a variety of academic programs to expose and engage students in the art of passively mapping enterprise networks, with the added benefit of providing exposure to open source Python solutions. First book to show you how to use open source Python to conduct passive network mapping Provides a new method for conducting incident response and investigating the extent of potential damage to your systems Python code forensics toolkit for network mapping included on the companion website

Board Member Orientation Michael E. Batts 2011-02-01 Finally! Board member orientation truly simplified. Serving on a nonprofit board can be an incredibly rewarding experience for the properly prepared board member. This book is for the generous and busy people who agree to give of their time and talents by serving on nonprofit boards. Nonprofit boards often fail to do a good job of board member orientation for a variety of reasons. It takes a significant amount of time and effort to plan and conduct quality board member orientation programs, and every time a new board member arrives, it's time to do it again! Because of the challenges associated with providing quality board member orientation, many nonprofit organizations do not do it at all, leaving their board members to wing it. This book provides help and support to the truly great men and women serving on nonprofit boards whose service makes a positive difference in the lives of countless people every day. This book is a concise and appropriately comprehensive guide to nonprofit board service designed especially for new board members. It is a quick read, (about one hour), yet it addresses with accuracy the most significant elements of board service, such as mission, responsibility, duty, risk, liability, and board meeting dynamics. Hooey Alerts! Watch for Hooey Alerts! where the author identifies and dispels common myths and legends about nonprofit board service. There are many sources of false or misleading information about the nonprofit board service environment. A perfect example is the often vaguely-worded and intimidating assertion or implication that the Sarbanes-Oxley Act passed by Congress in 2002 applies to nonprofit organizations in a manner similar to how it applies to publicly-traded companies. (It does not.) Reviews "This book is the perfect guide for every nonprofit board member! Concise, highly informative, and loaded with nuggets of wisdom, it's a must read that will take board members to the next level of successful board governance." -- J. Todd Chasteen, General Counsel, Samaritan's Purse "Mike Batts has put his quarter century of advising and serving on nonprofit boards to good use in this accurate and easy-to-read book. In addition to describing major principles of nonprofit law and governance, the book provides helpful questions to guide board members in understanding the practical applications of the concepts discussed. While geared primarily toward helping new board members get up to speed quickly, it should also help veteran board members discharge their stewardship roles wisely and efficiently." -- Chuck Hartman, Associate Professor of Business Law and Accounting, Cedarville University "This book, Board Member Orientation, is exactly what a busy volunteer board member needs. The board member's duties are presented in a clear and concise manner from the perspective of someone who has been around many boards. With a focus on those issues that are most common and/or most important, it is perfect for board member orientation and for quick reference reminders for the experienced board member." -- Doug Starcher, Partner, Broad & Cassel "This book provides clear, no-nonsense guidance on the basic issues for new nonprofit board members. Using this book for board member orientation will ensure your organization has communicated fundamental governance issues and will assist the board in determining risk management strategies." -- Dan Busby, President, ECFA ***** The Simple Board Member Orientation Process Using This Book: 1.Your board members read Chapters 1-9 of the book, which will provide them with insights regarding the key elements of nonprofit board service. 2.You provide the board members with copies of the documents described in Chapter 10 related to your organization. 3.You meet with your board members to discuss the unique attributes of your organization following the discussion questions provided in Chapter 10. Done!

The Christian World Around the New Testament Richard Bauckham 2017-10-20 Most of these thirty-one essays by Richard Bauckham, a well-known New Testament scholar, were first published between 1979 and 2015 in journals and multi-authored volumes. Two are previously unpublished and one has not been published in English before. They range widely over early Christianity and early Christian literature in both the New Testament period and the early patristic period, reflecting the author's conviction that the historical study of early Christianity should not isolate the New Testament literature from other early Christian sources, such as the apostolic fathers and the Christian apocryphal literature. Some of the essays develop further the themes of the author's books on aspects of the Gospels, such as the intended audiences of the Gospels, the way in which Gospel traditions were transmitted, the role of the eyewitnesses in the origins of the Gospels, the importance of Papias's evidence about Gospel traditions, and the relationship between canonical and Gnostic Gospels. Some of the essays relate to important persons, such as Peter, Barnabas, Paul and James. These include a full investigation of the evidence for the martyrdom of Peter and an attempt to locate the estate of Publius where Paul stayed on Malta. There are studies of the Sabbath and the Lord's Day in both the New Testament and patristic periods. There are studies that survey most of the main categories of apocryphal Christian literature, including apocryphal Gospels and Acts, and with a special focus on the non-canonical apocalypses, such as the Apocalypse of Peter and the Latin Vision of Ezra.

Into the Wild Jon Krakauer 2009-09-22 Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interst that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through

every page.

[Peace Child](#) Don Richardson 2005-08-08 From Cannibals to Christ-Followers--A True Story In 1962, Don and Carol Richardson risked their lives to share the gospel with the Sawi people of New Guinea. Peace Child tells their unforgettable story of living among these headhunters and cannibals, who valued treachery through fattening victims with friendship before the slaughter. God gave Don and Carol the key to the Sawi hearts via a redemptive analogy from their own mythology. The "peace child" became the secret to unlocking a value system that had existed through generations. This analogy became a stepping-stone by which the gospel came into the Sawi culture and started both a spiritual and a social revolution from within. With an epilogue updating how the gospel has impacted the Sawi people, this missionary classic will inspire a new generation of readers who need to hear this remarkable story and the lessons it teaches us about communicating Christ in a meaningful way to those around us.

[The New Feminist Movement](#) Marion Lockwood Carden 1974-02-01 The feminist movement has become an established force on the American political and social scene. Both the small consciousness-raising group and the large, formal organization command the attention of our legislative bodies, media, and general public. Maren Lockwood Carden's new book is the first to look beyond feminist ideas and rhetoric to give a detailed study of the movement—its structure, membership, and history of the organizations that form a major part of present-day feminism. Fair, objective, and comprehensive, her study is based on participant observation and in-depth interviews with rank and file members and local and national leaders in seven representative cities during 1969-1971. In Dr. Carden's analysis, the movement has two divisions. First, the hundreds of small, informal "Women's Liberation" consciousness-raising and action groups. Second, the large, formally structured "Women's Rights" organizations like the National Organization for Women (NOW) and the Women's Equity Action League. For both types of organizations, Dr. Carden covers members' reasons for participation; organizational structure; strategies and actions; and the relationship between ideology and structure, including the attempts by many groups to work as "participatory democracies." She also discusses the development of the movement from the mid-sixties to the present, and evaluates the long-term prospects for achieving the objectives of the various new feminist groups. Anyone interested in organizations, personality and society, and social change will welcome this detailed description and history of a complex and rapidly changing social movement. Highly readable and free of technical jargon, [The New Feminist Movement](#) tells us what's been happening to women in the last decade, what they want now, and where they may be headed in the future.

[The Color of Water](#) James McBride 2006-02-07 From the bestselling author of [Deacon King Kong](#) and the National Book Award-winning [The Good Lord Bird](#): The modern classic that spent more than two years on The New York Times bestseller list and that Oprah.com calls one of the best memoirs of a generation. Who is Ruth McBride Jordan? A self-declared "light-skinned" woman evasive about her ethnicity, yet steadfast in her love for her twelve black children. James McBride, journalist, musician, and son, explores his mother's past, as well as his own upbringing and heritage, in a poignant and powerful debut, [The Color Of Water: A Black Man's Tribute to His White Mother](#). The son of a black minister and a woman who would not admit she was white, James McBride grew up in "orchestrated chaos" with his eleven siblings in the poor, all-black projects of Red Hook, Brooklyn. "Mommy," a fiercely protective woman with "dark eyes full of pep and fire," herded her brood to Manhattan's free cultural events, sent them off on buses to the best (and mainly Jewish) schools, demanded good grades, and commanded respect. As a young man, McBride saw his mother as a source of embarrassment, worry, and confusion—and reached thirty before he began to discover the truth about her early life and long-buried pain. In [The Color of Water](#), McBride retraces his mother's footsteps and, through her searing and spirited voice, recreates her remarkable story. The daughter of a failed itinerant Orthodox rabbi, she was born Rachel Shilsky (actually Ruchel Dwara Zylska) in Poland on April 1, 1921. Fleeing pogroms, her family emigrated to America and ultimately settled in Suffolk, Virginia, a small town where anti-Semitism and racial tensions ran high. With candor and immediacy, Ruth describes her parents' loveless marriage; her fragile, handicapped mother; her cruel, sexually-abusive father; and the rest of the family and life she abandoned. At seventeen, after fleeing Virginia and settling in New York City, Ruth married a black minister and founded the all- black New Brown Memorial Baptist Church in her Red Hook living room. "God is the color of water," Ruth McBride taught her children, firmly convinced that life's blessings and life's values transcend race. Twice widowed, and continually confronting overwhelming adversity and racism, Ruth's determination, drive and discipline saw her dozen children through college—and most through graduate school. At age 65, she herself received a degree in social work from Temple University. Interspersed throughout his mother's compelling narrative, McBride shares candid recollections of his own experiences as a mixed-race child of poverty, his flirtations with drugs and violence, and his eventual self- realization and professional success. [The Color of Water](#) touches readers of all colors as a vivid portrait of growing up, a haunting meditation on race and identity, and a lyrical valentine to a mother from her son.

[Valuing People in Construction](#) Fidelis Emuze 2017-08-09 [Valuing People in Construction](#) provides contemporary perspectives on the 'glue' that binds the construction process together; people. The book addresses people issues in the construction industry where behavioural outcomes impact upon

business and project performance. The main proposition of the book is that as people continue to lead the completion of construction activities, their health, safety, and well-being should be seen as a priority, and valued by stakeholders. As employers and employees, the role of people in construction must be to strive for the improvement of individual lives and society. This edited collection, which is the first book to focus specifically on placing value on people in construction, focuses on people at work, gender at work, conditions at work, and respect at work. In addition to an editorial overview, the book presents tested and refined empirical work and case studies by leading construction researchers from Africa, Australia, and Europe. Essential reading for researchers, students and professionals interested in construction management, the sociology of construction, HRM in construction, gender, work and health studies.

Fatty Legs Christy Jordan-Fenton 2010-09-01 Eight-year-old Margaret Pokiak has set her sights on learning to read, even though it means leaving her village in the high Arctic. Faced with unceasing pressure, her father finally agrees to let her make the five-day journey to attend school, but he warns Margaret of the terrors of residential schools. At school Margaret soon encounters the Raven, a black-cloaked nun with a hooked nose and bony fingers that resemble claws. She immediately dislikes the strong-willed young Margaret. Intending to humiliate her, the heartless Raven gives gray stockings to all the girls — all except Margaret, who gets red ones. In an instant Margaret is the laughingstock of the entire school. In the face of such cruelty, Margaret refuses to be intimidated and bravely gets rid of the stockings. Although a sympathetic nun stands up for Margaret, in the end it is this brave young girl who gives the Raven a lesson in the power of human dignity. Complemented by archival photos from Margaret Pokiak-Fenton's collection and striking artworks from Liz Amini-Holmes, this inspiring first-person account of a plucky girl's determination to confront her tormentor will linger with young readers.

Building a New Community Psychology of Mental Health Carl Walker 2017-03-31 This book provides a much-needed account of informal community-based approaches to working with mental distress. It starts from the premise that contemporary mainstream psychiatry and psychology struggle to capture how distress results from complex embodied arrays of social experiences that are embedded within specific historical, cultural, political and economic settings. The authors challenge mainstream understandings of mental health that position a naive public in need of mental health literacy. Instead it is clear that a considerable amount of invaluable mental distress work is undertaken in spaces in our communities that are not understood as mental health treatments. This book represents one of the first attempts to position these kinds of spaces at the center of how we understand and address problems of mental distress and suffering. The chapters draw on case studies from the UK and abroad to point toward an exciting new paradigm based on informal community and socially oriented approaches to mental health. Written in an unusually accessible and engaging style, this book will appeal to social science students, academics, practitioners and policy makers interested in community and social approaches to mental health.

Handbook on the Gospels (Handbooks on the New Testament) Benjamin L. Gladd 2021-06-01 A leading New Testament scholar provides an easy-to-navigate resource for studying and understanding the Gospels. Written with classroom utility and pastoral application in mind, this accessibly written volume summarizes the content of each major section of the biblical text to help students, pastors, and laypeople quickly grasp the sense of particular passages. The series, modeled after Baker Academic's successful Old Testament Handbook series, focuses primarily on the content of the biblical books without getting bogged down in historical-critical questions or detailed verse-by-verse exegesis. The book covers all four Gospels and explores each major passage, showing how Jesus is the central figure of each plot. It also unpacks how the Old Testament informs the Gospels.
