In Cuba I Was a German Shepherd Ana Menéndez 2007-12-01 Eleven short stories of the Cuban immigrant experience as characters adjust to life in the United States, from an award-winning author. From the prize-winning title story—a masterpiece of humor and heartbreak—unfolds a collection of tales that illuminate the landscape of an exiled community rich in heritage, memory, and longing for the past. In Cuba I Was a German Shepherd is at once “tender and sharp-fanged” as Ana Menéndez evocatively charts the territory from Havana to Coral Gables, Florida, and explores whether any of us are capable, or even truly desirous, of outrunning our origins (LA Weekly). “With the grace of Margaret Atwood and the sensuality of Laura Esquivel,” Menéndez makes an unforgettable debut “rich in metaphor, wisdom, and delicious subtlety” (St. Petersburg Times).

Mental Logic Martin D.S. Braine 1998-04-01 Over the past decade, the question of whether there is a mental logic has become subject to considerable debate. There have been attacks by critics who believe that all reasoning uses mental models and return attacks on mental-models theory. This controversy has invaded various journals and has created issues between mental logic and the biases-and-heuristics approach to reasoning, and the content-dependent theorists. However, despite its pertinence to current issues in cognition, few cognitive scientists really know what the mental-logic theory is, and misapprehensions are prevalent. This volume is a comprehensive presentation of the theory of mental logic and its implications for cognition and development, including the acquisition of language. The theory offered here has three parts. Part I is the mental logic per se that contains a set of inference schemas. Part II is a reasoning program that applies the schemas in lines of reasoning, including a direct-reasoning routine and more sophisticated indirect-reasoning strategies. Part III of the theory is pragmatic, proposing that the basic meaning of each logic particle is in the inferences that are sanctioned by its inference schemas.

Leadership and Management Development Jan L. Carmichael 2011-01-27 Written by a team of experienced practitioners who have worked in HR in many organizational sectors, Leadership and Management Development offers students an ideal blend of critical and practice-based approaches. Drawing on their extensive backgrounds, the authors combine insights from the latest research with a multitude of cases and examples. A truly international range of cases--along with examples from both the not-for-profit and commercial sectors and from organizations of all sizes--provide a well-rounded demonstration of how management and leadership work across all areas. The cases are followed by reflective questions and problem-based scenarios that encourage academic, practical, and personal development and provide opportunities for assessment. Leadership and Management Development also includes separate chapters on two key issues--ethics and diversity--and a wide range of pedagogical features and academic references. The text is enhanced by a Companion Website containing resources for students (full audio podcasts featuring practitioners who expand on case studies from the book; sample exam questions with answers; a flashcard glossary; annotated web links arranged by topic; and further reading updates) and instructors (PowerPoint-based slides for each chapter; a teaching outline and answers to questions; and seminar activities).

The Wine Bible Karen MacNeil 2015-10-13 Announcing the completely revised and updated edition of The Wine Bible, the perennial bestselling wine book praised as "The most informative and entertaining book I've ever seen on the subject" (Danny Meyer), "A guide that has all the answers" (Bobby Flay), "Astounding" (Thomas Keller), and "A magnificent masterpiece of wine writing" (Kevin Zraly). Like a lively course from an expert teacher, The Wine Bible grounds the reader deeply in the fundamentals while layering on informative asides, tips, amusing anecdotes, definitions, glossaries, photos (all new for this edition), maps, labels, and recommended bottles. Karen MacNeil's information comes directly through primary research; for this second edition she has tasted more than 10,000 wines and visited dozens of wine regions around the world. New to the book are wines of China, Japan, Mexico, and Slovenia. And through it all the reader becomes ever more informed—and, because of the author's unique voice, always entertained: "In great years Pétrus is ravishing, elegant, and rich—Ingrid Bergman in red satin." Or, describing a

Riesling: "A laser beam. A sheet of ice. A great crackling bolt of lightning."
