Gardening at Longmeadow Monty Don 2012-05-31 Monty Don made a triumphant return to our screens as presenter of Gardeners' World. A firm favourite with viewers, Monty's infectious enthusiasm for plants, attention to the finer details of gardening technique and easy charm have seen the ratings soar. Here Monty invites us into the garden at Longmeadow, to show us how he created this beautiful garden, and how we can do the same in our own. Following the cycle of the seasons, Gardening at Longmeadow will introduce readers to the garden from the earliest snowdrops of January through the first splashes of colour in the Spring Garden, the electric summer displays of the Jewel Garden, the autumn harvest in the orchard, and on to a Christmas feast sourced from the vegetable gardens. Describing the magic of each area at different times of the year, Monty will explain the basics of what to do when and how to get the most from each plant. He'll talk through the essential

techniques and more complex processes, accompanied by easy-to-follow, step-by-step photography. Longmeadow is a gardeners' garden, but this will be a book for gardening enthusiasts of all skill levels who have been inspired by what they've seen, and who would like to achieve something similar for themselves.

Lighting Essentials Don Giannatti 2012-04-01 The core goal of photography is representing subjects that have depth and texture in a medium that inherently lacks both those qualities, and this book shows the best way to rise to that challenge: through the careful application and capture of lighting. It demonstrates how to accentuate or minimize textures, add or subtract highlights, and create or combat shadows to showcase the subjects in the best way and create the illusion of a third dimension in the images. Exploring techniques for lighting portraits, still-life subjects, nature images, and architectural shots, both studio and location lighting are covered in detail. The book teaches photographers how to study their subjectsÑwith all of the textures, colors, shapes, and surfaces they haveÑthen visualize the image as

a finished photograph before the photography actually begins. With chapters that thoroughly cover the science of lighting and visualization, photographers can apply that knowledge and successfully create artful images.

Joist Hangers Construction Research Communications Limited 1995 The use of joist hangers provides a quick, economic and reliable method for forming timber-to-timber joints and for supporting timbers on masonry or steel beams. Although their installation is less dependent on traditional trade skills, care must be taken when specifying and fitting joist hangers. This guide is for building designers, contractors and site supervisors. It shows how to use hangers to support timber joists in new construction work, and stresses the importance of correct specification and installation to ensure good performance. This guide replaces BRE Defect Action Sheets 57 and 58, which have been withdrawn.

Manual of Tests and Criteria United Nations 2020-01-06 The Manual of Tests

and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".

Housing 2.0 Sam Rashkin 2021-09-15 Home is the ultimate consumer product. It has to be. We spend nearly 70 percent of our lives in our homes. Which leads to the "why" for Housing 2.0: Home is where life happens. Moreover, housing is one our nation's largest industries with a profound impact on our national economy. However, five crises are historically converging on the industry causing exponentially increasing pain. Housing 2.0 is about connecting the dots by identifying four market-ready innovations that will effectively mitigate these crises. In essence, it is a guide how to prepare for the inevitable disruption looming ahead. And it all begins by shifting the housing industry to a user experience optimization business model. Housing 2.0 uniquely serves this transition with an actionable framework for consistently delivering homes that meet and exceed homebuyer expectations. It includes:?

- 19 strategies for optimizing 5 key user experiences?
- 150+ proven user experience best practices?
- 400+ pages of meticulously organized content?
- 360+ citations supporting key findings and recommendations?
- Hundreds of charts, graphs, and illustrations?
- Eight thought leaders essays providing expert insights in key principles

Adapting the Housing 2.0 framework provides

an opportunity to build homes with substantially greater user value at significantly lower cost. This finding is supported by detailed tabulations throughout the book and empirical case studies in the final chapter. But one warning. Housing 2.0 is a lot to take in all at once. Do not be overwhelmed by all of the exciting opportunities provided to optimize how we build communities and individual homes. Instead, every housing organization should be inspired to start getting on their own optimization path. One where they customize the comprehensive Housing 2.0 framework for their regional constraints and business constraints, and then start applying it to actual projects. Towards that end, all housing professionals are invited to join Housing 2.0 Workshops and Action Groups provided by Green Builder Media and to start their own journey to user experience leadership. Housing 2.0 is about homes where life happens better.

One Good Turn Witold Rybczynski 2013-07-23 The Best Tool of the Millennium The seeds of Rybczynski's elegant and illuminating new book were sown by The New York Times, whose editors asked him to write an essay identifying "the best tool of the millennium." The award-winning author of Home, A Clearing in the Distance, and Now I Sit Me Down, Rybczynski once built a house using only hand tools. His intimate knowledge of the toolbox --

both its contents and its history -- serves him beautifully on his quest. One Good Turn is a story starring Archimedes, who invented the water screw and introduced the helix, and Leonardo, who sketched a machine for carving wood screws. It is a story of mechanical discovery and genius that takes readers from ancient Greece to car design in the age of American industry. Rybczynski writes an ode to the screw, without which there would be no telescope, no microscope -- in short, no enlightenment science. One of our finest cultural and architectural historians, Rybczynski renders a graceful, original, and engaging portrait of the tool that changed the course of civilization.
