Story, Not Study: 30 Brief Lessons to Inspire Health Researchers as Writers Lorelei Lingard 2021-04-26 Many researchers dread writing. They find it laborious - even painful - to put their scholarly work into words. They get bogged down in the study, and lose track of the story. And they produce uninspiring papers that fail to resonate with readers or reviewers. This book offers an antidote to this problem: brief, accessible lessons that guide researchers to write clear and compelling scientific manuscripts. The book is divided into three sections – Story, Craft, and Community. The Story section offers advice on getting the balance of study and story just right, introducing strategies for tackling each section of a scientific manuscript. The Craft section considers the grammatical and rhetorical tools of the trade, showing how they can be wielded for maximum impact. And the Community section offers suggestions for writing collaboratively, supporting other writers, and navigating peer review. Each section features multiple short and pragmatic lessons, peppered with illustrative examples. Readers can use the chapters collectively to build holistic writing skills, or dip in and out to refine specific elements of the craft. Rooted in a coaching philosophy, we aim to unlock our readers' potential as writers through instruction, reflection, and example. And we hope to inspire researchers to face writing with joy. This work is clearly written and easily understandable. Its many practical examples, tools, and exercises make an effective toolbox of support for scholarly writers. This will be invaluable to new scholars and help established scholars as well. The inclusion of examples specific to the health arena and the clear, elegantly simple explanations add strength and relevance to this work. Toni Ungaretti, Johns Hopkins School of Education, Baltimore, MD, USA This book is the most original perspective I have ever read about the craft of writing. As its title suggests, it is inspiring. Research Methodology for Master Students of Literature Fouad Mami 2019-09-01 This text presupposes that in many cases plagiarism results from poor training and a confused perception of what is involved in research. The textbook is addressed to non-native English-speaking students and their instructors, principally those seeking degrees in literature. Through a close examination of what initially seems to be the self-evident 'facts' of research--those presumed simple steps in the multilayered research process that are usually glossed over in research methodology courses--students will become less confused about what the research practically involves and more empowered to work on their first serious research project with confidence and clarity.

Nobody Turn Me Around Charles Euchner 2010-09-25 On August 28, 1963, over a quarter-million people—about two-thirds black and one-third white—held the greatest civil rights demonstration ever. Martin Luther King, Jr. delivered his iconic “I Have a Dream” oration. And just blocks away, President Kennedy and Congress skirmished

over landmark civil rights legislation. As Charles Euchner reveals, the importance of the march is more profound and complex than standard treatments of the 1963 March on Washington allow. In this major reinterpretation of the Great Day—the peak of the movement—Euchner brings back the tension and promise of that day. Building on countless interviews, archives, FBI files, and private recordings, Euchner shows freedom fighters as complex, often conflicted, characters. He explores the lives of Philip Randolph and Bayard Rustin, the march organizers who worked tirelessly to make mass demonstrations and nonviolence the cornerstone of the movement. He also reveals the many behind-the-scenes battles—the effort to get women speakers onto the platform, John Lewis’s damning speech about the federal government, Malcolm X’s biting criticisms and secret vows to help the movement, and the devastating undercurrents involving political powerhouses Kennedy and FBI director J. Edgar Hoover. For the first time, Euchner tells the story behind King’s “Dream” images. Euchner’s hour-by-hour account offers intimate glimpses of the masses on the National Mall—ordinary people who bore the scars of physical violence and jailings for fighting for basic civil rights. The event took on the call-and-response drama of a Southern church service, as King, Lewis, Mahalia Jackson, Roy Wilkins, and others challenged the throng to destroy Jim Crow once and for all. *Nobody Turn Me Around* will challenge your understanding of the March on Washington, both in terms of what happened but also regarding what it ultimately set in motion. The result was a day that remains the apex of the civil rights movement—and the beginning of its decline.

Stepping Stones Chris Juzwiak 2009-02-12 Recognizing that many students in the sentence-to-paragraph-level course have experienced repeated failure in the past, *Stepping Stones* takes a fresh approach to the core challenges of the course. The book clearly articulates — textually and visually — the sentence patterns that college writers need to master. Then, it patiently guides students through every step of building these sentences and recognizing common problems in them. Additionally, the book offers unusually thorough, carefully staged guidance in developing and organizing ideas — two of the most difficult tasks for developmental students. Drawing on years of classroom experience, award-winning educator Chris Juzwiak recognizes that all students have the potential to become better writers and just need the right tools to succeed.

Brief-Writing Master Plan Chinua Asuzu 2022-08-23 As much a sword as a shield, Brief-Writing Master Plan offers an unparalleled and unprecedented curriculum of written advocacy. It's a sparkling, alchemical blend of doctrine, ethics, and skills. It recruits linguistics, logic, psychology, rhetoric, and semantics into the arsenal of learned advocacy. It contains the rhetorical wisdom of ages, pages, and sages. An advocate files a brief to persuade the judge to decide the lawsuit in favor of the advocate's client. The keyword is persuade. Too often, advocates forget this and write to please themselves. They address themselves instead of the court. They write in chest-thumping prose and style. Advocates will do well to keep in mind that in advocacy, all that counts is persuading the judiciary. Hence, Brief-Writing Master Plan responds to the judicial wish list for advocates' writing style and substance. This book is a transformative resource with the potential to accelerate court proceedings by easing judicial burdens and caseloads. A sober reflection on the advocate's duty to the court,

Brief-Writing Master Plan encourages professional candor, decency, and honesty. Writing as taught in this book will surely propel you to the top 1% of the global legal profession and secure your legacy.
