**FIREARM SAFETY CERTIFICATE - M California Department of Justice 2016-12-01** The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

**Legislating in the Dark James M. Curry 2015-09-14** The 2009 financial stimulus bill ran to more than 1,100 pages, yet it wasn't even given to Congress in its final form until thirteen hours before debate was set to begin, and it was passed twenty-eight hours later. How are representatives expected to digest so much information in such a short time. The answer? They aren't. With *Legislating in the Dark*, James M. Curry reveals that the availability of information about legislation is a key tool through which Congressional leadership exercises power. Through a deft mix of legislative analysis, interviews, and participant observation, Curry shows how congresspersons—lacking the time and resources to study bills deeply themselves—are forced to rely on information and cues from their leadership. By controlling their rank-and-file's access to information, Congressional leaders are able to emphasize or bury particular items, exploiting their information advantage to push the legislative agenda in directions that they and their party prefer. Offering an unexpected new way of thinking about party power and influence, *Legislating in the Dark* will spark substantial debate in political science.

**Communities in Action National Academies of Sciences, Engineering, and Medicine 2017-04-27** In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal

in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

U.S. History P. Scott Corbett 2017-12-19 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

George Henry White Benjamin R. Justesen 2001 Although he was one of the most important African American political leaders during the last decade of the nineteenth century, George Henry White has been one of the least remembered. A North Carolina representative from 1897 to 1901, White was the last man of his race to serve in the Congress during the post-Reconstruction period, and his departure left a void that would go unfilled for nearly thirty years. At once the most acclaimed and reviled symbol of the freed slaves whose cause he heralded, White remains today largely a footnote to history. In this exhaustively researched biography, Benjamin R. Justesen rescues from obscurity the fascinating story of this compelling figure's life and accomplishments. The mixed-race son of a free turpentine farmer, White became a teacher, lawyer, and prosecutor in rural North Carolina. From these modest beginnings he rose in 1896 to become the only black member of the House of Representatives and perhaps the most nationally visible African American politician of his time. White was outspoken in his challenge to racial injustice, but, as Justesen shows, he was no militant racial extremist as antagonistic white democrats charged. His plea was always for simple justice in a nation whose democratic principles he passionately loved. A conservative by philosophy, he was a dedicated Republican to the end. After he retired from Congress, he remained active in the fight against racial discrimination, working with national leaders of both races, from Booker T. Washington to the founders of the NAACP. Through judicious use of public documents, White's speeches, newspapers, letters, and secondary sources, Justesen creates an authoritative and balanced portrait of this complex man and proves him to be a much more effective leader than previously believed.

*Congress and Nuclear Weapons* James M. Lindsay 1991 Lindsay (political science, U. of Iowa) traces the rise of congressional interest in nuclear weapons policy since the 1960s. Combining analyses of committee and floor behavior with case studies of four important programs--the Trident submarine and the MX, Pershing II, and ASAT missiles--he finds that the influence of Congress over nuclear weapons policy has dramatically increased. The Federalist Papers Alexander Hamilton 2009-04-28 This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the

U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them. Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Developing and Maintaining Emergency Operations Plans: Comprehensive Preparedness Guide (CPG) 101, Version 2.0 U. s. Department of Homeland Security 2013-01-23 Comprehensive Preparedness Guide (CPG) 101 provides Federal Emergency Management Agency (FEMA) guidance on the fundamentals of planning and developing emergency operations plans (EOP). CPG 101 shows that EOPs are connected to planning efforts in the areas of prevention, protection, response, recovery, and mitigation. Version 2.0 of this Guide expands on these fundamentals and encourages emergency and homeland security managers to engage the whole community in addressing all risks that might impact their jurisdictions. While CPG 101 maintains its link to previous guidance, it also reflects the reality of the current operational planning environment. This Guide integrates key concepts from national preparedness policies and doctrines, as well as lessons learned from disasters, major incidents, national assessments, and grant programs. CPG 101 provides methods for planners to: Conduct community-based planning that engages the whole community by using a planning process that represents the actual population in the community and involves community leaders and the private sector in the planning process; Ensure plans are developed through an analysis of risk; Identify operational assumptions and resource demands; Prioritize plans and planning efforts to support their seamless transition from development to execution for any threat or hazard; Integrate and synchronize efforts across all levels of government. CPG 101 incorporates the following concepts from operational planning research and day-to-day experience: The process of planning is just as important as the resulting document; Plans are not scripts followed to the letter, but are flexible and adaptable to the actual situation; Effective plans convey the goals and objectives of the intended operation and the actions needed to achieve them. Successful operations occur when organizations know their roles, understand how they fit into the overall plan, and are able to execute the plan. Comprehensive Preparedness Guide (CPG) 101 provides guidelines on developing emergency operations plans (EOP). It promotes a common understanding of the fundamentals of risk-informed planning and decision making to help planners examine a hazard or threat and produce integrated, coordinated, and synchronized plans. The goal of CPG 101 is to make the planning process routine across all phases of emergency management and for all homeland security mission areas. This Guide helps planners at all levels of government in their efforts to develop and maintain viable all-hazards, all-threats EOPs. Accomplished properly, planning provides a methodical

way to engage the whole community in thinking through the life cycle of a potential crisis, determining required capabilities, and establishing a framework for roles and responsibilities. It shapes how a community envisions and shares a desired outcome, selects effective ways to achieve it, and communicates expected results. Each jurisdiction's plans must reflect what that community will do to address its specific risks with the unique resources it has or can obtain. Planners achieve unity of purpose through coordination and integration of plans across all levels of government, nongovernmental organizations, the private sector, and individuals and families. This supports the fundamental principle that, in many situations, emergency management and homeland security operations start at the local level and expand to include Federal, state, territorial, tribal, regional, and private sector assets as the affected jurisdiction requires additional resources and capabilities. A shared planning community increases the likelihood of integration and synchronization, makes planning cycles more efficient and effective, and makes plan maintenance easier.

The Blazing Center Study Guide Desiring God 2006-07-03 What Do You Revolve Around? All the planets of your life—from your labor and leisure to your thinking and feeling—are held in orbit by the greatness, gravity, and blazing brightness of Jesus Christ at the center of your life. When He ceases to be the center, the planets of your life fly into confusion, sending a hundred things out of control. Pastor John Piper's powerful teaching is recorded during an intimate retreat for youth leaders and students onto three The Blazing Center DVDs. With the study guide, this is an ideal package for adult and youth Sunday school classes, small groups, retreats, classrooms, and families. Discover surprising insights about the reality of sin, how your love for God is really revealed, and how only joy in Him will sustain you through times of suffering. God Is the Blazing Sun at the Center of Reality Everything revolves around Him. And as the most valuable and glorious person who exists, God is loving, not conceited, when He calls us to worship Him. His pursuit of glory and our pursuit of joy are not at odds—because God is most glorified in us when we are most satisfied in Him. This study guide is designed to be used in a ten-session, guided group study that focuses on The Blazing Center DVD set: Lesson 1—Introduction to The Blazing Center Lesson 2—The Blazing Center: A Personal Story Lesson 3—The Blazing Center: Is God Vain? Lesson 4—Pursue Your Joy: Isn't That Hedonism? Lesson 5— Pursue Your Joy: God Commands It! Lesson 6—True Love: Duty or Delight? (Part 1) Lesson 7—True Love: Duty or Delight? (Part 2) Lesson 8—Suffering: For the Joy Set Before You (Part 1) Lesson 9— Suffering: For the Joy Set Before You (Part 2) Lesson 10—Review and Conclusion Complete with Scripture and key quotations for reflection, penetrating questions, and five daily assignments per week, this study guide will help you place God at the center of your life. When God is the blazing sun at the center of your solar system, all the planets of your life come into proper orbit. Leader's guide included! Story Behind the Book "The greatest news in all the world is that there is no final conflict between my passion for joy and God's passion for His glory. The knot that ties these together is the truth that God is most glorified in us when we are most satisfied in Him. Jesus Christ died and rose again to forgive the treason of our souls, which have turned from savoring God to savoring self. In the cross of Christ, God rescues us from the house of mirrors and leads us out to the mountains and canyons of His majesty. Nothing satisfies us—or magnifies Him—more." —John Piper

The Tongue and Quill Air Force 2019-10-11 The Tongue and Quill has been a valued Air Force resource for decades and many Airmen from our Total Force of uniformed and civilian members have contributed their talents to various editions over the years. This revision is built upon the foundation of governing directives and user's inputs from the unit level all the way up to Headquarters Air Force. A small team of Total Force Airmen from the Air University, the United States Air Force Academy, Headquarters Air Education and Training Command (AETC), the Air Force Reserve Command (AFRC), Air National Guard (ANG), and Headquarters Air Force compiled inputs from the field and rebuilt The Tongue and Quill to meet the needs of today's Airmen. The team put many hours into this effort over a span of almost two years to improve the content, relevance, and organization of material throughout this handbook. As the final files go to press it is the desire of The Tongue and Quill team to say thank you to every Airman who

assisted in making this edition better; you have our sincere appreciation!

Strengthening Forensic Science in the United States National Research Council 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
