Silk and Potatoes Adam Roberts 2022-06-08 This study constitutes the first to analyse the remarkable surge in popularity of Arthurian literature and art in the modern period from a broad range of instances of cultural production. More novels with Arthurian themes have been published since the war than in any previous period, and Silk and Potatoes provides detailed readings of some of the most famous, including works by Marion Zimmer Bradley, Anthony Burgess, C.J. Cherryh, Guy Gavriel Kay, Mary Stewart, Jack Vance and T.H. White. In addition to examining Arthurian fiction (with chapters on the general novel, Historical fiction and Science Fiction), this study examines the key cinematic examples of Arthuriana (Boorman's Excalibur, Bresson's Lancelot du Lac, Rohmer's Perceval Le Gallois and Monthy Python and the Holy Grail). A further chapter goes on to look at the myriad other forms of cultural production based on Arthurian themes; from Bugs Bunny to Pop Music, from the Camelot of JFK to the

British National Lottery. This is a study that touches on many aspects of Arthuriana whilst developing two connected arguments about (on the one hand) the necessary anachronism of any modern Arthurian Literature, and (on the other) the aesthetic-political implications of this literature's success. The whole, whilst rooted in the scholarly debates on the enduring appeal of King Arthur, is written in an accessible and entertaining style. It will be of interest to students and teachers of Arthurian literature, film and popular culture.

The Cambridge Companion to Medieval French Literature Simon Gaunt 2008-04-10  
Medieval French literature encompasses 450 years of literary output in Old and Middle French, mostly produced in Northern France and England. These texts, including courtly lyrics, prose and verse romances, dits amoureux and plays, proved hugely influential for other European literary traditions in the medieval period and beyond. This Companion offers a wide-ranging and stimulating guide to literature composed in medieval French from its beginnings in the ninth century until the Renaissance. The essays are grounded in detailed analysis of canonical texts and authors such as the Chanson de Roland, the Roman de la Rose, Villon's Testament, Chrétien de Troyes, Machaut, Christine de Pisan and the Tristan romances. Featuring a chronology and suggestions for further reading, this is the ideal companion for students and scholars in other fields wishing to discover the riches of the French medieval tradition.

When Evil Calls C E Marshall 2019-11-20 A whole class of boys disappear without trace from their school. Another set of boys apparently witness what happened but are physically prevented from describing what they saw for some months. This latter group of boys separate to follow their own careers, marry and raise children, but are eventually all brought together again in an engineering capacity – despite earlier interests. Working together they devise new alloys and electronic communication devices. They build a model of machine they believe will travel through space – at the same time secretly building the parts for a full size machine. The model is tested in front of witnesses and performs perfectly but disappears from all monitoring systems for most of the test flight. While testing the new communication device a message is received from their old school friends who vanished those years ago. It takes some convincing of others that these boys (men now) are still alive but permission is given for the full size machine to be built. Whole families are smuggled aboard the machine which, rather than going for a test flight, heads for the planet where their old friends are waiting. On arrival they find that all the people there have to be underground at night and in well lit places; any person, or animal, left outside at night is found dead the next day. They explore the planet, make friends with unknown animals, but are caught outside at night. A call for help is answered and they all survive, but now have a mission to destroy the darkness. They return to Earth to pick up people versed in ancient magics and return to Paxlene where, after adventures the darkness is defeated. An attempt is made to return the special people to Earth but fails as the Earth is about to be hit by a giant Asteroid. They are able to cocoon parts of the Earth and shield them from the catastrophe, but it all happens too quickly for anyone to be returned home. They try return to Paxlene, now free of evil, where they plan to help to build new societies out in the open, but something takes over their controls. The story continues with 'Wormhole' , and will conclude with a third tale which has a working title of "Restitution".

The Secret Language of Signs Denise Linn 2009-02-04 In every moment the universe is whispering to you. Even ordinary events in your life carry communications from the realm of the Spirit. . . . Whether we are conscious of it or not, the universe is communicating to us through signs. In this mind-opening book, renowned healer and author Denise Linn shows that coincidence, synchronicity, and those premonitions we've all experienced are never accidents but a kindly world's way of trying to nudge us in the right direction. Drawing on firsthand true stories and native wisdom from around the world, Linn helps us regain our innate capacity to listen to the universe, to use the signs that speak to us every day of our lives. Step by step, she shows us how to call for a sign, how to create the best conditions for receiving it, and how to interpret the signs we receive, with the most comprehensive dictionary of signs ever compiled. Designed to help you develop your own ability to interpret signs as they call to you, the dictionary entries give you a starting point for understanding what your signs are communicating. For instance . . . \* An abyss might symbolize a chasm in your life. Is there something that seems impassable to you? \* A storm can indicate internal conflict. It can also indicate that the air is clearing in regard to a situation in your life. \* A crossroads signifies that a time of decision is ahead. Take time and tune in to your intuition before choosing your future path. \* Smoke can be a warning of danger. Is there a situation in your life that's about to go up in flames? Smoke can also indicate a lack of clarity. With this powerful, easy-to-use guide, Denise Linn helps us to reconnect with the magic of our inner selves to make the right decisions and choices in our lives.

The Chronicles of All-Time: Dr. Jurgen Vanhauwe 2014-11-22 The Chronicles of All-Time is a series of books that describe the nature of time, space and reality with a central storyline, the life of Dr. Elliott Himmerept. Very much like the best-seller book "Life of Pi", this book describes the amazing awakening story of Dr. Himmerept, which is an alias for the author, Dr. Jurgen Vanhauwe. Through his visits to Heaven, which are described in this first book, and many strange occurrences in his perceptual reality, a multi-cultural and intergalactic story starts to develop. The entire series will help young and adult readers understand the nature of our Universe and the multi-faceted role that we play during our human life experience. While the setting and the story telling is meant to be science fiction, it is up to the reader to discern what parts of the book may have been taken from the real life experience of Dr. Jurgen Vanhauwe and what parts are science fiction. Or maybe all of it is what truly transpired? The first book in this series focuses on the remembrance of who we truly are as humans, and the main character's journey to openness and acceptance that life is more than it seems through our five senses. With insights from our distant past and futures, it becomes clear that we are not alone in this Universe and that we are part of a much larger living entity. This book will help you re-evaluate what is possible and what is real or not.
