With design-savvy, yet completely kid-friendly illustrations, they're asked to draw or write about a bunch of interesting things -- like what their hair looks like, what their band name would be, what they'd bring to outer space, and how they feel about lightning, lizards and pickles. There may or may not be a place for super-secret stuff inside the book jacket. Whether kids complete their entire compendium on a rainy day, or finish it over a year, it'll become a treasure to look back on and smile. Ideal for the holidays, rainy days and happy occasions of all kinds, this is an imagination-building gift will engage kids

for hours on end

Everbound Brodi Ashton 2013-02-14 It's been two months since the dark tunnels of the underworld came for Nikki Beckett. That night, Nikki's boyfriend, Jack, made the ultimate sacrifice and took her place in the Everneath for eternity - a debt that should have been hers. Every night Jack appears in her dreams, lost and confused, and wasting away. All Nikki wants is to save him before it's too late, but no matter how hard she tries to reach for his hand, she can never find it. Desperate for answers, Nikki turns to Cole, the immortal bad boy who wants to make her his Queen - and the one person least likely to help. But it seems Nikki has touched his heart, and surprisingly, Cole agrees to help in the only way he can - by taking Nikki to the Everneath himself. As they descend into the heart of the Everneath Nikki and Cole discover that their journey will be more difficult than they'd anticipated, and more deadly. Nikki vows to stop at nothing to save Jack - even if it means making an incredible sacrifice of her own...

You Better Not Cry Augusten Burroughs 2009-10-27 You've eaten too much candy at Christmas...but have you ever eaten the face off a six-footstuffed Santa? You've seen gingerbread houses...but have you ever made your own gingerbread tenement? You've woken up with a hangover...but have you ever woken up next to Kris Kringle himself? Augusten Burroughs has, and in this caustically funny, nostalgic, poignant, and moving collection he recounts Christmases past and present—as only he could. With gimlet-eyed wit and illuminated prose, Augusten shows how the holidays bring out the worst in us and sometimes, just sometimes, the very, very best.

Adam Smith and Law Robin Paul Malloy 2016-12-09 The essays selected for this volume highlight the contributions of Adam Smith to our understanding of law and jurisprudence. The collection provides a detailed and overarching analysis of Smith's work related to law and shows how Smith connected jurisprudence to moral philosophy and to economics. In this regard, the volume is unique and stands out in comparison to the many books which explore Smith's contributions to economics. Contributions to this volume form the core of an essential research collection on Adam Smith and law by reproducing key works of scholarship in a form that permits the user to authoritatively cite the original publications; maintaining the original pagination and references."

The Book of L. G. Rozenberg 2012-12-06 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to

biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Building Energy Modeling Sanjiv Devnani 2012-01-25 While the best teacher of best practices is hands-on work experience, even the most seasoned professionals may want additional resources to support their knowledge bases. Building Energy Modeling: An ASHRAE Certification Study Guide supplies this additional information by delineating for practitioners the current editions of standards and other references necessary for building energy modeling and assists in preparation for ASHRAE's Building Energy Modeling Professional (BEMP) certification. As interest in building sustainability has increased, so has interest in energy modeling as a tool for achieving building energy savings. ASHRAE recognizes the importance of energy modeling to the processes for designing, building, operating, and maintaining buildings and facilities and thus has attempted to create a comprehensive package of resources that includes publications, educational courses, and a certification program.

Excerpts of the relevant publications are included in the study guide, along with the program's full detailed content outline (DCO), which is a blueprint for the certification examination, and a DCO matrix that serves as a roadmap for identifying the essential resources for ASHRAE's BEMP certification program. It lays out in a single table which sections of the resources are applicable to the different sections of the examination. As much as possible, this study guide identifies the specific areas on the program's DCO that each reference helps support. This publication is also a valuable resource for any individual in the building energy modeling field, whether aiming to be ASHRAE certified or not. Full of a multitude of references, this guide serves as an indispensable source of information related to building energy modeling. If an individual's goal is to take ASHRAE's Building Energy Modeling Professional certification (BEMP) exam, this guide helps to focus study effort. The guide does not teach one how to perform building energy modeling.

Bridge Deck Behaviour E C Hambly 1991-07-25 This book describes the underlying behaviour of steel and concrete bridge decks. It shows how complex structures can be analysed with physical reasoning and relatively simple computer models and without complicated mathematics.

Honeyball & Bowers' Textbook on Employment Law Simon Honeyball 2016 Honeyball and Bowers' Textbook on Employment Law is an approach to employment law with strong critical analysis whilst placing it in its wider contexts, in a concise and user-friendly format. Fully updated to take into account the recent significant developments in this area, including the Equality Act 2010, the key topics on most employment law courses are addressed in detail. An extremely clear writing style allows this text to remain accessible and student-focussed, while providing detailed explanations and analysis of the law. The text also includes diagrams and chapter summaries throughout to aid student understanding, while further reading suggestions assist with essay preparation and research. Setting employment law in context, this book considers both industrial and collective issues as well as examining the increasing role of the EU in UK employment law. A separate chapter on human rights also enables students to understand the role human rights legislation plays in the development of employment law. This book also contains cross referencing to Painter & Holmes' Cases & Materials on Employment Law, ensuring that these two texts continue to complement one another and provide the perfect combination of textbook analysis and the most up-to-date cases and materials. This text is accompanied by a free Online Resource Centre (www.oxfordtextbooks.co.uk/orc/honeyball12e/) which

contains updates to the law and useful weblinks.

After Promontory Center for Railroad Photography and Art 2019-03-01 Celebrating the sesquicentennial anniversary of the completion of the first transcontinental railroad in the United States , *After Promontory: One Hundred and Fifty Years of Transcontinental Railroad* profiles the history and heritage of this historic event. Starting with the original Union Pacific—Central Pacific lines that met at Promontory Summit, Utah, in 1869, the book expands the narrative by considering all of the transcontinental routes in the United States and examining their impact on building this great nation. Exquisitely illustrated with full color photographs, *After Promontory* divides the western United States into three regions—central, southern, and northern—and offers a deep look at the transcontinental routes of each one. Renowned railroad historians Maury Klein, Keith Bryant, and Don Hofsommer offer their perspectives on these regions along with contributors H. Roger Grant and Rob Krebs.

TRIZ for Engineers: Enabling Inventive Problem Solving Karen Gadd 2011-02-11 TRIZ is a brilliant toolkit for nurturing engineering creativity and innovation. This accessible, colourful and practical guide has been developed from problem-solving workshops run by Oxford Creativity, one of the world's top TRIZ training organizations started by Gadd in 1998. Gadd has successfully introduced TRIZ to many major organisations such as Airbus, Sellafield Sites, Saint-Gobain, DCA, Doosan Babcock, Kraft, Qinetiq, Trelleborg, Rolls Royce and BAE Systems, working on diverse major projects including next generation submarines, chocolate packaging, nuclear clean-up, sustainability and cost reduction. Engineering companies are increasingly recognising and acting upon the need to encourage successful, practical and systematic innovation at every stage of the engineering process including product development and design. TRIZ enables greater clarity of thought and taps into the creativity innate in all of us, transforming random, ineffective brainstorming into targeted, audited, creative sessions focussed on the problem at hand and unlocking the engineers' knowledge and genius to identify all the relevant solutions. For good design engineers and technical directors across all industries, as well

as students of engineering, entrepreneurship and innovation, TRIZ for Engineers will help unlock and realise the potential of TRIZ. The individual tools are straightforward, the problem-solving process is systematic and repeatable, and the results will speak for themselves. This highly innovative book: Satisfies the need for concise, clearly presented information together with practical advice on TRIZ and problem solving algorithms Employs explanatory techniques, processes and examples that have been used to train thousands of engineers to use TRIZ successfully Contains real, relevant and recent case studies from major blue chip companies Is illustrated throughout with specially commissioned full-colour cartoons that illustrate the various concepts and techniques and bring the theory to life Turns good engineers into great engineers.

Unsafe at Any Meal Dr. Renee Joy Dufault 2017-05-04 * A TOP "SUMMER READS" TITLE - Environmental Health News (EHN) Each year, Americans consume hundreds of food products that contain truly dangerous compounds, including heavy metals, pesticides, and other harmful additives—with the blessing of the FDA. Why is this happening and why haven't you heard about it? In *Unsafe at Any Meal*, Dr. Renee Dufault, former food investigator for the Food and Drug Administration, provides the startling answers. While at the FDA, Dr. Dufault discovered that mercury—a highly toxic metal—was contaminating the plumbing systems of many food manufacturing plants. Upon further examination, she discovered that the same mercury was also evident in a number of processed foods commonly sold in supermarkets. When Dr. Dufault revealed these disturbing findings to her superiors, she was told to stop her investigation. Her continued efforts to raise the issue always met with a dead end, so she chose to take an early retirement from the FDA. Dr. Dufault then devoted her energy to making the public aware of the insidious dangers that contaminate our food. In 2010, she founded an organization of scientists to study the scope of this problem and has published numerous research articles on the topic with little fanfare. To expose what still seems to be a well-kept secret by the FDA, she has

written *Unsafe at Any Meal* to provide consumers with the information they need to know. The book begins with the author's story leading up to the creation of this work. It then describes the various toxic substances that are most commonly found in our food supply, and explains how they affect your genes, health, and the surrounding environment. After examining the Standard American Diet, which is sorely lacking in disease-preventing nutrients, it discusses the country's trend toward consuming a skyrocketing amount of ingredients that can contain heavy metals. It further shows how exposure to these heavy metals can contribute to conditions such as ADHD or autism. Also included is a helpful guide to reading food labels, recognizing misleading marketing tactics, and knowing what to look for—and what to look out for—in the aisles of your grocery store. Over fifty years ago, Rachel Carson's book *Silent Spring* exposed the dangers of DDT in our food supply. Unfortunately, it seems that the problem of food contamination has actually become worse. Backed by research and first-hand experience, Dr. Dufault reveals how the FDA has failed us, and outlines how you can protect yourself and your family by knowing what to avoid and by filling your kitchen with food that is clear of toxins.

Lucy's Knee Yves Coppens 2002 This is the story of the old days, our story, that of the 'slow emergence of the hominid, the difficult breakthrough of consciousness, the heavy rising of body to erect stance and the touching instability of first bipedalism, the clumsiness of first attempts to shape stone and the moving tenacity to improve them.' It is a story of science, paleo-anthropology, and its most recent advances. It is also the story of a life of research, illuminated by the discovery of the skeleton Lucy an object of endless fascination. What is the point of prehistory? It puts Man in its place. 'It teaches us who we are, how we became what we are and why.' This is everybody's history, not only to the people of Africa. Scientific facts are presented to the layperson in an understandable way, making for a fascinating read."

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod

and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Sophie's expecting...and Cooper has just proposed a shotgun marriage....

Odes Sharon Olds 2016-09-20 Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to

us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

The TRIZ methodology is increasingly being adopted by leading corporations around the world to enhance their competitive position. The authors explain how the TRIZ methodology harnesses creative principles extracted from thousands of successful patented inventions to help you find better, more innovative, solutions to your own design problems. Whether you're trying to make a better beer can, find a new way to package microchips or reduce the number of parts in a lawnmower engine, this book can help.

Card Design Jon Newman 2014-03-01 With the onset of the computer and e-mail, it seems these days we are less likely to send a card by post.

However, there is something very personal about receiving personal mail.

'Card Design' has chapters covering invitation cards and promotional cards, as well as several types of greeting cards looking at the aspects of why people would want to keep your card rather than treat as junk mail.

Over 150 detailed examples are included all in full colour.

British Low Culture Leon Hunt Unpr Chq 2013-10-18 Identifying 'permissive populism', the trickle down of permissiveness into mass consumption, as a key feature of the 1970s, Leon Hunt considers the values of an ostensibly 'bad' decade and analyses the implications of the 1970s for issues of taste and cultural capital. Hunt explores how the British cultural landscape of the 1970s coincided with moral panics, the troubled Heath government, the three day week and the fragmentation of British society by nationalism, class conflict, race, gender and sexuality.

Creative Solutions for a Sustainable Development Yuri Borgianni 2021-09-15 This book constitutes the refereed proceedings of the 21st International TRIZ Future Conference on Automated Invention for Smart Industries, TFC 2021, held virtually in September 2021 and sponsored by IFIP WG 5.4. The 28 full papers and 8 short papers presented were carefully reviewed and selected from 48 submissions. They are organized in the following thematic sections: inventiveness and TRIZ for sustainable development; TRIZ, intellectual property and smart technologies; TRIZ: expansion in breadth and depth; TRIZ, data processing and artificial intelligence; and TRIZ use and divulgation for engineering design and beyond. Chapter 'Domain Analysis with TRIZ to Define an Effective "Design for Excellence"' is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.
