Excel HSC Economics J. Buultjens 2005 Contains comprehensive coverage of the new course, chapter summaries, research activities, glossary of terms and useful websites.

Ethics and the Legal Profession Elliot D. Cohen 2009 Beneficial for law or philosophy students, or practicing lawyers, Ethics and the Legal Profession includes articles by eminent philosophers and lawyers that explore moral problems in legal practice. The text is divided into six sections, each dealing with an important issue: The History and Organization of the Profession in the United States; The Moral Critique of Professionalism; The Adversary System; Conflict of Interest and Professional Judgment; Perjury and Confidentiality; and Making Legal Services Available. Combining in-depth case studies with careful analysis, the editors help students and professionals distinguish between moral and technical judgment, become clearer about the meaning of moral discourse in the workplace, and better appreciate the higher callings of their profession. Raising provocative questions about the rationale and limits of professional responsibility, this text provides insights into the ethics of the legal profession at a time when technology, globalization, and the changing economics of lawyering are reshaping the profession of law in ways still hard to predict.

PDHPE in Focus Aaron Boyd 2010 PDHPE in Focus HSC Course has been written specifically for the revised 2009 NSW Stage 6 PDHPE syllabus by a highly respected author team. syllabus dot points. Up-to-date statistics, case studies and articles place topics within context and provide relevance for today's students. Sample student answers (available on the eText) are linked to topics throughout the texts and provide examples of actual Band 6 answers to help with exam preparation.

Pop City Youjeong Oh 2018-12-15 Pop City examines the use of Korean television dramas and K-pop music to promote urban and rural places in South Korea. Building on the phenomenon of Korean pop culture, Youjeong Oh argues that pop culture-featured place selling mediates two separate domains: political decentralization and the globalization of Korean popular culture. The local election system introduced in the mid 90s has stimulated strong desires among city mayors and county and district governors to develop and promote their areas. Riding on the Korean Wave—the overseas popularity of Korean entertainment, also called Hallyu—Korean cities have actively used K-dramas and K-pop idols in advertisements designed to attract foreign tourists to their regions. Hallyu, meanwhile, has turned the Korean entertainment industry into a speculative field into which numerous players venture by attracting cities as sponsors. By analyzing the process of culture-featured place marketing, Pop City shows that urban spaces are produced and sold just like TV dramas and pop idols by promoting spectacular images rather than substantial physical and cultural qualities. Popular culture-associated urban promotion also uses the emotional engagement of its users in advertising urban space, just as pop culture draws on fans' and audiences' affective commitments to sell its products. Oh demonstrates how the speculative, image-based, and consumer-exploitive nature of popular culture shapes the commodification of urban space and ultimately argues that pop culture-mediated place promotion entails the domination of urban space by capital in more sophisticated and fetishized ways.
